MCC Nursing Program and local hospital to host community skin exam clinic

MILES CITY, MONTANA: The Miles Community College Nursing Program, along with Intermountain Health Holy Rosary Hospital, will be hosting a free community clinic to address skin concerns.

The Skin Clinic will be held on Friday, October 4 from 8:00 am to 4:00 pm on the Miles Community College campus in the Nursing Lab (Room 112), located in the Lucas Hall Administrative Building.

This clinic is free and open to the public of all ages.

A licensed provider will be on hand to screen participants for general skin concerns and issues. A list of local dermatology providers, contact information, and resources will be available for referrals and follow-ups to address any further concerns. MCC Nursing Students and faculty will be assisting with participant check-in and initial screening questions during the clinic.

This event is a walk-in style clinic set-up; prior registration and appointments are not required. Please join the college and these local entities in providing this free resource to the Miles City area community.

For more information, please contact MCC Nursing Instructor Katrina Luther at 406-874-6190 or lutherk@milescc.edu.
